WORKBENCH 2.0 - SYNTHETIC CONTROL DEMONSTRATION

Fictional access-review evidence record

Review scope: fictional service with fourteen sample identities.

Four fictional entries have privileged roles.

Check grants against current responsibilities and accountable ownership.

Record reviewer, date, scope, outcome and any exceptions.

Escalate orphaned access for investigation and authorised action.

Evidence is a sample record, not proof of a functioning control.

No ISO certification, UK GDPR compliance or audit result is claimed.

Fictional exercise only; no real organisation records are included.
