ALAN WALTER GALLAGHER

Technology operations | Business analysis | Governance | Responsible digital change
Bristol, United Kingdom | alanwgallagher1@gmail.com | www.alanwpgallagher.info

PROFESSIONAL PROFILE

Technology and operations professional with experience in international enterprise IT, business analysis, hardware assessment and approval, information security and public-sector governance. Established PADU, a structured framework for evaluating device suitability, while working with Engineering and operational colleagues at Optum / UnitedHealth Group. Currently a Programme Co-ordinator in Democratic Services at the West of England Combined Authority. Independently develop websites and explore responsible AI-assisted research, documentation and workflows, keeping evidence and human oversight central.

CORE CAPABILITIES

- Technology assessment, stakeholder liaison, requirements clarification and problem solving.
- Process documentation, business analysis, governance records and exception handling.
- Enterprise access administration, role-based permissions, recertification and audit support.
- Microsoft 365, SharePoint, Excel, ServiceNow, Ariba, Active Directory and Tableau.
- Independent work with GitHub, Visual Studio Code, HTML/CSS and AI-assisted research.

PROFESSIONAL EXPERIENCE

Programme Co-ordinator - Democratic Services | West of England Combined Authority | Aug 2026-present

- Maintain formal decision registers and Officer Decision Notice records and documentation.
- Liaise with project and service teams, identify missing information and support approval pathways.

Band 4 Administrator and Operations Support | North Bristol NHS Trust | Sep 2024-Jul 2026

- Co-ordinated referrals, appointments, results, clinical administration and time-sensitive records.
- Handled confidential data and worked with clinicians, managers, patients and third parties.

- Managed regulated lease administration, complaints, billing and contractual enquiries.

Sales Administrator | Revival Solutions t/a South West Truck & Van | Dec 2022-Jul 2023

- Co-ordinated vehicle orders, purchase documentation, logistics, invoicing and compliance records.

Business Analyst / Associate Technical Support Analyst | Optum, Ireland / UK | Mar 2019-Apr 2022

- Co-ordinated international hardware procurement, sourcing, forecasting, inventory and lifecycle requirements.
- Worked across technical, commercial and operational teams on sourcing and service challenges during Brexit and COVID-19.
- Prepared reporting, operational documentation and updates; liaised with global vendors.

Senior Technical Support Specialist | Optum, Ireland | Dec 2016-Mar 2019

- Reviewed and approved hardware for UnitedHealth Group operations across international markets.
- Established PADU (Preferred, Acceptable, Discouraged, Unacceptable), classifying device suitability.
- Worked with Engineering, Security and ISO teams on technical requirements, exceptions and approvals.

Information Security Associate - Operations Representative | Pramerica Systems | Oct 2012-Jun 2016

- Tier I and II enterprise access support, role-based controls, recertification and audit documentation.
- Supported enterprise technology change, including Office 365 transition activity.

INDEPENDENT DIGITAL WORK

Maintain personal websites and digital resources including this portfolio and Waylight Atlantic. Workbench exercises separately label career evidence, independent projects and synthetic demonstrations in process analysis, document control, access governance and safe AI-output review. A fictional AI adoption workshop illustrates a possible training method, not a delivered employer rollout. No measured AI adoption benefits or client deployments are claimed.

EDUCATION AND EARLIER CAREER

Five GCSEs at grade C or above including English Language and Mathematics. Earlier roles in the UK and Ireland (1999-2012): telecommunications, legal claims administration, Civil Service, customer service, hospitality and technical operations.
